Rushil Grover

CSE Freshman @ IIIT Hyderabad

Hyderabad, Telangana, India

Summary

I am a Freshman at IIIT Hyderabad, pursuing a degree in
Conputer Science and Engineering (CSE). Coding and the world
of mathematics has been a passion of mine for as long as I can
remember and i'm looking forward to building a career in the field of
software development, currently learning a variety of
languages including C, Python, JS!

Having been a passionate debater for the last 7 years, I've also
developed valuable skills in the field of public speaking and
competed at inter-school levels for the same.

I also have a great amount of experience in handling logistics for
events, currently being a member of logistics in 3 clubs in IIITH, as
well as leading logistics for one of them. I was also head of logistics
for multiple school-wide events during high school and lead events
attended by hundreds of people, honing my skills for leadership and
collaboration.

Always open to talk and connect!
